

NOAA/NASA Enhanced Data Set Project

FY 2002 Information Sheet

This interagency activity will not accept new proposals in FY 2002, but continuations and renewals of existing projects will be supported. Principal Investigators considering submitting FY 2002 proposals to the Climate Change Data and Detection program element with a central theme of producing new and/or enhanced climate or global change data sets for analyses, applications, assessments, or climate impact studies should contact Bill Murray at 301-427-2089 ext. 133, or Internet: William.L.Murray@noaa.gov.
